Cleaning agents

acidic and alkaline detergents	157	158–159	158 <i>t</i>
characteristics	158		
selection of	158		
water	158		

Cleaning limits and acceptance criteria

acceptable carryover quantities	137–138	141
doses	137	
medical/pharmacological potency	138–139	
risk levels	140	
toxicity	139–140	

Cleaning methods, equipment

acidic wash	156
air flushing	156–157
alkali wash	156
builders	155
final rinse	156
operator training	167
organic solvent cleaning	154–157
postalkali wash	156
prewash	155–156
recovery in swab sampling	151–152
residues	141
stability issues	152–154
standard operating procedures	166–167

Cleaning validation, equipment

analytical methods	159–166
atomic absorption spectroscopy	165–166
bioluminescence	163

Index Terms
